

Applicant Initiated Interview Request Form

Application No.: 10/684,055First Named Applicant: Thompson, DavidExaminer: Dennis Y. MyintArt Unit: 2162Status of Application: Pending**Tentative Participants:**(1) Myint, Dennis(2) Pagar, Preetam

(3) _____

(4) _____

Proposed Date of Interview: February 6, 2009Proposed Time: 1:30 PM EST AM/PM**Type of Interview Requested:**(1) ☒ Telephonic(2) ☐ Personal(3) ☐ Video Conference

Exhibit To Be Shown or Demonstrated:

☐ YES☒ NO

If yes, provide brief description: _____

Issues To Be Discussed

Issues (Rej., Obj., etc.)	Claims/ Fig. #s	Prior Art	Discussed	Agreed	Not Agreed
(1) Rej.	1 et al.	Pugh / Garza	☐	☐	☐
☐ Continuation Sheet Attached					

Brief Description of Argument to be Presented:

I wish to discuss Pugh / Garza in relation to generating a sequence value that has a random component plus an average of the two adjacent sequence values. Pugh does not disclose a random SEQUENCE value, but rather a random level for a node once placed in the ordered sequence (see Pugh, Fig. 3 – node 17 is placed as node 17, with no random value). The office action on page 6 alleges Pugh teaches “the random sequence value being generated relative to other levels.” However, this is not what is stated in the claims.

An interview was conducted on the above-identified application on _____.

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
